About jrCode

At jrCode we believe that creative critical thinking is one of the fundamental building blocks for success. In each of our classes, students will develop these skills through a variety of programming challenges. We believe that this all starts with a foundational coding knowledge that exposes kids to the basics: Foundations (Grades 2-5) and Accelerated Foundations (Grades 4-8). After those basics have been mastered we invite our students to explore specialty tracks of their choosing, including interactive gaming and animation classes. Most of our classes utilize the Scratch platform, which was developed at MIT to introduce children to programming languages. Unless indicated, jrCode provides the computers and technical support needed to complete each class.

Foundations

(Ages 5 - 10)

Instructor: Skyhawks Sports Staff

One of our most popular programs, Skyhawks Golf focuses on building the confidence of young athletes through proper technique and refining the essential skills of the game. As we know, golf is a challenging and lifelong sport, so young athletes need proper focus on the fundamentals of form, swinging, putting and body positioning. To assist in this training, Skyhawks has adopted the SNAG (Starting New At Golf) system which uses modified equipment to its curriculum developed by PGA professionals, SNAG is specifically designed for the entry-level player; SNAG simplifies instruction so that young players can make an easy & effective transition onto the golf course. No need to bring your own clubs, all equipment is provided. For safety reasons we keep the instructor to camper ratio for this program very low, resulting in limited availability. As a result these programs fill up quickly. Participants should wear loose fitting cloths, sneakers, and bring a water bottle.

Sign Language

424503

(Ages 16+)

Instructor: Robert McGuane

In addition to hearing aids, etc., the ASL Manual alphabet is one of the options advocated by the Massachusetts Commission for the Deaf & Hard of Hearing (MCDHH) to support the late deafened or recently hard of hearing. The Manual Alphabet is the foundation of American Sign Language (ASL), however, for manual communicators who use fingerspelling, the manual alphabet is a complete, and essential language. A current trend points to FS first letter abbreviations as a North American, universal, auxiliary language to support the large number of deaf, late deafened or hearing impaired, who, when lip reading, consciously or unconsciously, may otherwise have to guess the first letters of words. For low vision lip readers, including persons diagnosed with age-related macular degeneration (AMD), the ASL Manual Alphabet is a low vision aid. Families and care givers should learn this valuable skill. Baby or Basic Sign Language beginning signers can learn more ASL by completely learning the Manual Alphabet. The instructor, an applied scientist & educator, is a former personal ASL FS / MCE interpreter for a senior family member.

A NOTE TO PARENTS FOR NASHOBA SKI

The Recreation Department has been offering ski lessons at Nashoba Valley for a number of years. There are a few things that you can do to help us. We do ask that your child wear the ski band provided by us, so that we can identify those in our group. WE ARE NOT RESPONSIBLE FOR ARTICLES LEFT BEHIND. YOUR CHILD MUST MAKE SURE THEY HAVE EVERYTHING BEFORE WE LEAVE NASHOBA. Children are not allowed to wear ski boots on the bus. Every child who goes to Nashoba on the bus will return to the Warren Building parking lot on the bus. If you must pick your child up at Nashoba, then you will also be responsible for getting them to Nashoba that day. Last, but not least, we ask that you BE ON TIME TO PICK UP YOUR CHILD. The bus is usually back at the Warren Building parking lot by 5:15 pm at the latest for the Wednesday program, and for the Friday night program by 9:30 pm.

Rentals are an additional \$90 to be paid at prefit.
